

About us

We are one of the leading independent commercial printers in the United Kingdom!

We have maintained our **independent, family ownership** in an industry that is becoming increasingly dominated by large corporations. This allows us to be more responsive to the needs of our customers, and to **consistently reinvest and expand our services**.

To maintain a competitive edge, we **continually invest in both technology and expand our employees**. Robotics and AI are heavily utilised within the business to **boost production and streamline everyday tasks**.

All of this investment improves our operations and processes, providing our customers with **the best possible service every time**.

YOUNG PARTNERS IN PRINT

with

micropress

One of the UK's largest independently owned printing companies

Right on your doorstep!

APPRENTICESHIP OPPORTUNITIES

Level 3 Print Technician

Start date TBC at Micropress, Reydon
30 months (Equivalent to an A-Level)

Are you practical, detail-focused, and interested in how things are made? Join our team as a Print Technician Apprentice and begin an exciting hands-on career in the world of print production at one of the UK's leading printing companies.

What You'll Learn

As a Print Technician Apprentice, you'll be trained in the operation and maintenance of high-performance print machinery, **playing a key role** in bringing designs to life through quality print production. Your training will include:

- Setting up, running, and maintaining lithographic and digital presses.
- Monitoring print quality and making real-time adjustments during production.
- Preparing materials such as paper, plates, and inks for each job.
- Understanding colour management and achieving accurate colour reproduction.
- Following job specifications and production schedules.
- Carrying out routine maintenance and troubleshooting press issues.
- Working closely with Pre-Press and Finishing departments to ensure a smooth production flow.

Training & Development

You'll gain **in-depth, industry-recognised knowledge** in:

- Modern printing technologies and machinery (e.g. Heidelberg presses).
- Quality assurance processes and print standards.
- Environmental, health, and safety regulations in a print production environment.
- Production workflow and the end-to-end print process.

You'll also develop key skills including communication, teamwork, problem-solving, and adaptability.

Upon successful completion, you'll be a **qualified** Print Technician **with a pathway** into print management or further technical roles **within the industry**.

Level 2 Print Operative

Start date TBC at Micropress, Reydon
24 months (Equivalent to GCSE Level 2)

We are seeking motivated individuals to join our team as Level 2 Print Operatives. This apprenticeship offers a comprehensive 24-month training program covering all aspects of print production, including health and safety, quality assurance, environmental sustainability, and hands-on experience across different print functions.

What You'll Learn

- Health and Safety practices: risk assessments, PPE, manual handling, ergonomic practice, and compliance with relevant legislation such as COSHH and the Health and Safety at Work Act.
- Environmental awareness and sustainability, including waste disposal and energy efficiency.
- Understanding the printing and graphic communication industry, its markets, and organisational culture.
- Production processes from pre-press to post-press operations including quality control and deadlines.
- Problem-solving techniques for print machinery, digital tools, and online services.
- Data security standards (GDPR) and equality & diversity in the workplace.

Specialisations

Press Operative

Setting up and maintaining printing presses, managing inks and chemicals, ensuring print quality, and following safety procedures.

Post-Press Operative

Operating finishing equipment such as guillotines and binders, handling adhesives and laminates, maintaining machinery, and quality inspection.

Join us for **hands-on experience** in a dynamic print production environment with a **supportive team** and **career progression opportunities!**

Apply now to **start your journey** in the exciting print industry!
